# The Mark of Quality Teaching

**With so many online dance classes to choose from, make sure your child is learning in a safe environment. Look for:**

## A Qualified Teacher

- Recognised teaching qualification
- Established business
- Takes the time to find out about your child

## A Safe Online Environment

- Online classes should be by invitation only
- The teacher must be in control of who enters the class
- Private chat is disabled – the online platform should be for dancing only

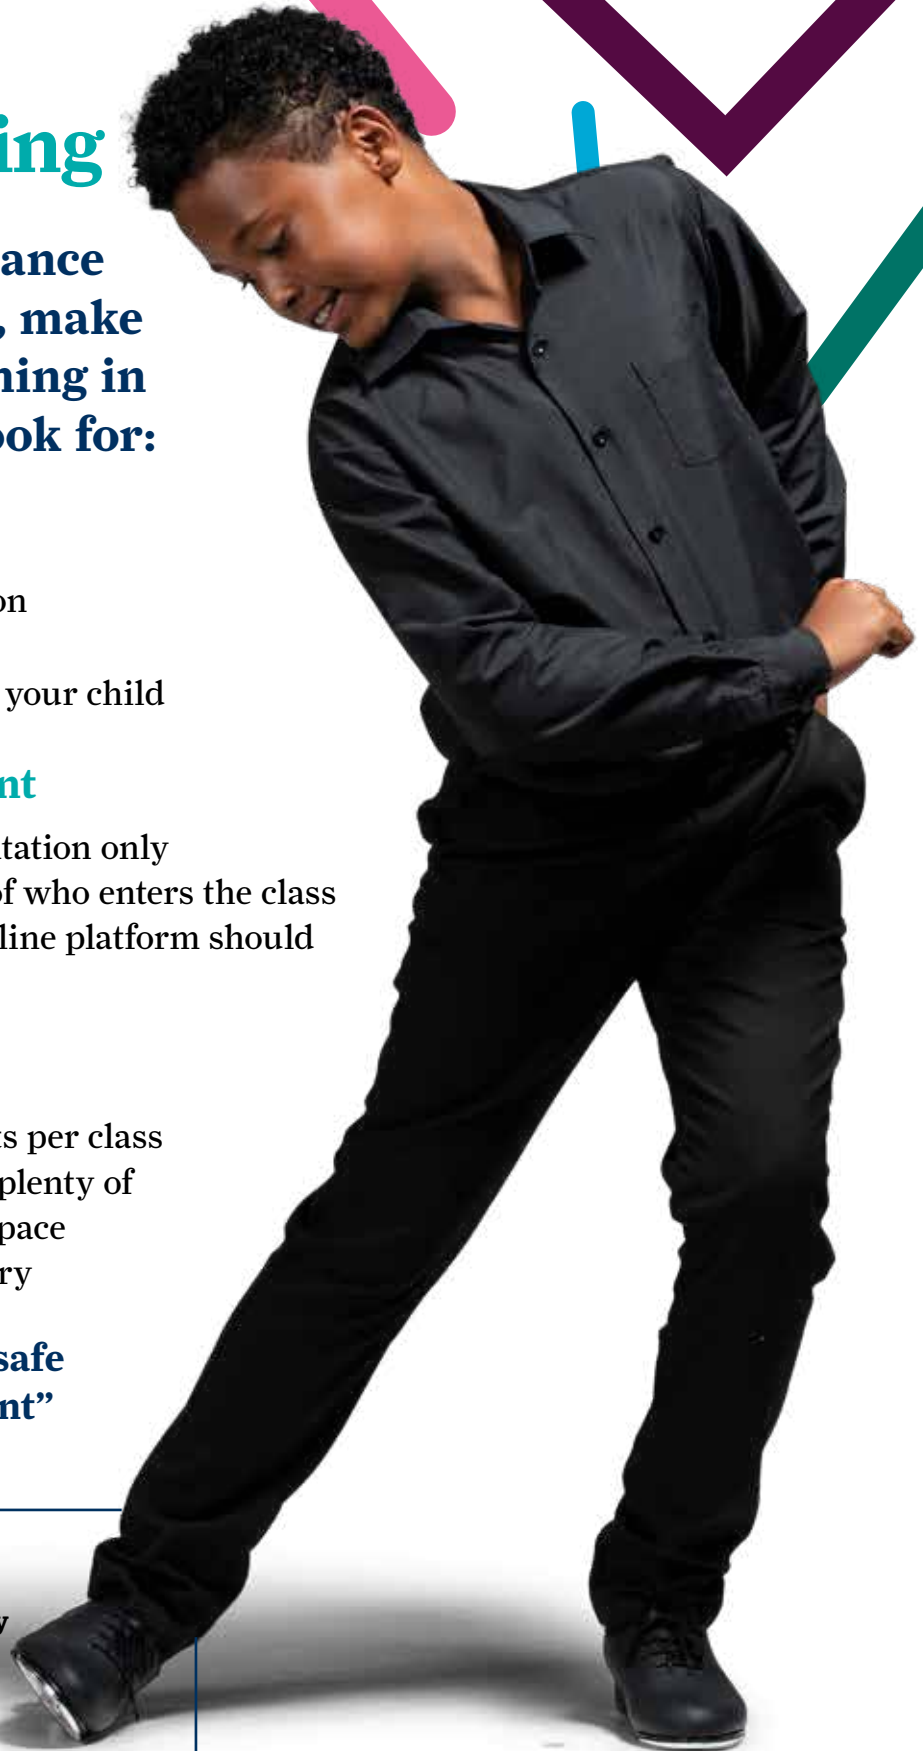

## High Quality Teaching

- A limited number of participants per class
- Warm-up and cool-downs and plenty of reminders about safe working-space
- Positive and encouraging delivery

**“The mark of a good class – safe and engaging creative content”**

**Remember good quality teaching takes time, experience and preparation; online teaching should not always be free. Support your dance teacher and dance school by continuing to pay for lessons.**
